### *Timeline Creation*

————— A wedding day is one of the most memorable and special days in a couple's life. And what better way to capture those precious moments than through photos? However, taking beautiful wedding photos requires careful planning and organization. One of the most important elements of this planning process is creating a wedding photo timeline.

A wedding photo timeline is a detailed schedule that outlines when and where photos will be taken throughout the day. It helps to ensure that everything runs smoothly and that all the important moments are captured without any delays or confusion. We will come in about 2 months prior to your wedding to help and guide you to create your perfect wedding photo timeline!

### *Engagement Session*

————— A wedding engagement session is a great way for you to celebrate your love and commitment to each other before their big day. Not only is it a chance to capture beautiful photos, but it also serves as a practice round for you to get comfortable in front of the camera.

During the engagement session, you have the opportunity to work with me to create a vision for your wedding day photos. This allows me to understand your style, preferences and personalities, and to tailor my approach to suit you.
